

# Blockchain Roundtable Workshop

REGULATORY AND DATA PROTECTION ISSUES

21 MARCH 2019

Blockchain projects are raising regulatory as well as data protection issues. In the course of this breakfast event we will present and discuss with you some of the occurring problems, particularly:

- Regulatory issues of token qualification
- Money laundering regulations
- The proposals of the Federal Council in its report of 7 December 2018
- Compliance with the provisions of the GDPR and the Swiss data protection law
- Anonymised and pseudonymised data and data protection - what is possible and who is responsible?
- Data subject rights and blockchain
- Consequences for project structuring.

We look forward to welcoming you at our workshop.

Thursday, 21 March 2019

8.00am – 9.00am (admission from 7.45am)

Bahnhofstrasse 53, 8001 Zurich, Switzerland

Language: English (on 26 February this workshop will be held in German)
